

AWS Storage Gateway

A Click-to-Run™ Solution from TD SYNnex

Business Challenge

As companies evaluate their applications, some are relatively straightforward to move to the cloud, while others are more complex. Applications may need to remain on-premises for performance or compliance reasons, or because they require tight integration with local IT infrastructure. For these reasons, organizations want to explore hybrid cloud storage solutions that provide on-premises access to data stored in AWS and extend the benefits of the AWS Cloud to their data centers and edge locations.

Introducing TD SYNnex Cloud Storage with AWS Gateway

AWS Storage Gateway is a hybrid cloud storage solution that helps customers overcome hybrid cloud storage challenges and bridge the gap between their on-premises environments and the cloud.

This Click-to-Run™ Solution allows partners to deliver hybrid cloud storage with the ability to provide easy access to on premise applications and data with the AWS Storage Gateway Appliance. This solution accelerates deployment timelines by streamlining the procurement, configuration and delivery processes.

Easily connect your Storage Gateway to virtually unlimited cloud storage.

Key Features

- Supports S3 File Gateway, FSX Gateway, Tape & Volume Gateways.
- Physical stand-alone appliance pre-configured for on premise deployments.
- Pre-installed Software Gateway and customized with memory, CPU, Network and SSD cache resources for your preferred gateway setup.

Business Outcomes

- Simple Backup & Disaster Recovery
- Application Portability
- File Share Modernization
- Virtually Unlimited Cloud Storage
- Supports Compliance Efforts

Why Leverage TD SYNnex Click-to-Run™ Solutions?

Reduce Cost and Time

Reduce costs, time and risks by customizing and deploying pre-architected, validated and tested solutions.

Offer More – Get More

Enhance your portfolio and increase your revenue by offering more options and solutions to your customers.

Faster Time to Market

Receive a broad set of enablement resources to quickly build cloud solutions practices within your organization.
